

**Call to all migrants and migrants' associations
of Bologna and its province:**

MIGRANTS'DAY

FOR MIGRANTS' RIGHTS AND FREEDOM!

**APRIL 23, FROM 3 TO 8 PM
PIAZZA DELL'UNITA', BOLOGNA**

On Sunday 26 of March, migrant students and workers and migrants' associations from Bologna and its province participated to an assembly in order to discuss about their problems and conditions inside and outside work-places. The migrants and associations who participated stressed the urgency of a new mobilisation against the Bossi-Fini Law and against any return to the Turco-Napolitano Law. Together, we decided to organize a **migrants' day, on April 23, in piazza dell'Unità, Bologna. The MIGRANTS'DAY** has to be a day of festivity and communication during which workers and students, migrants and italian, could directly take word in order to impose to the next government, no matter what will be its colour, the strength of their requests.

The Coordinamento Migranti Bologna and Provincia and Migrants' associations invite all to walkout in order to create a day of festivity and struggle, where to dance, eat and listen good music. In order to say together:

- No to the "contratto di soggiorno per lavoro" and to "quotas" regime, for a permanent regularization unconnected with labour contract and wages!
- No to the stealing of our contributions if expelled from Italy!
- For our children's freedom of growing and studying in Italy, without being blackmailed by the "contratto di soggiorno per lavoro" and by the expulsion when they are 18!
- For a regularization of all asylum seekers, and for a law really guarantying them!!
- For the definitive closure of all detention and identifications centres!
